Experiment 2: Design logo/picture using GIMP.

Designing a logo for an android app. Required dimensions : 512 x 512

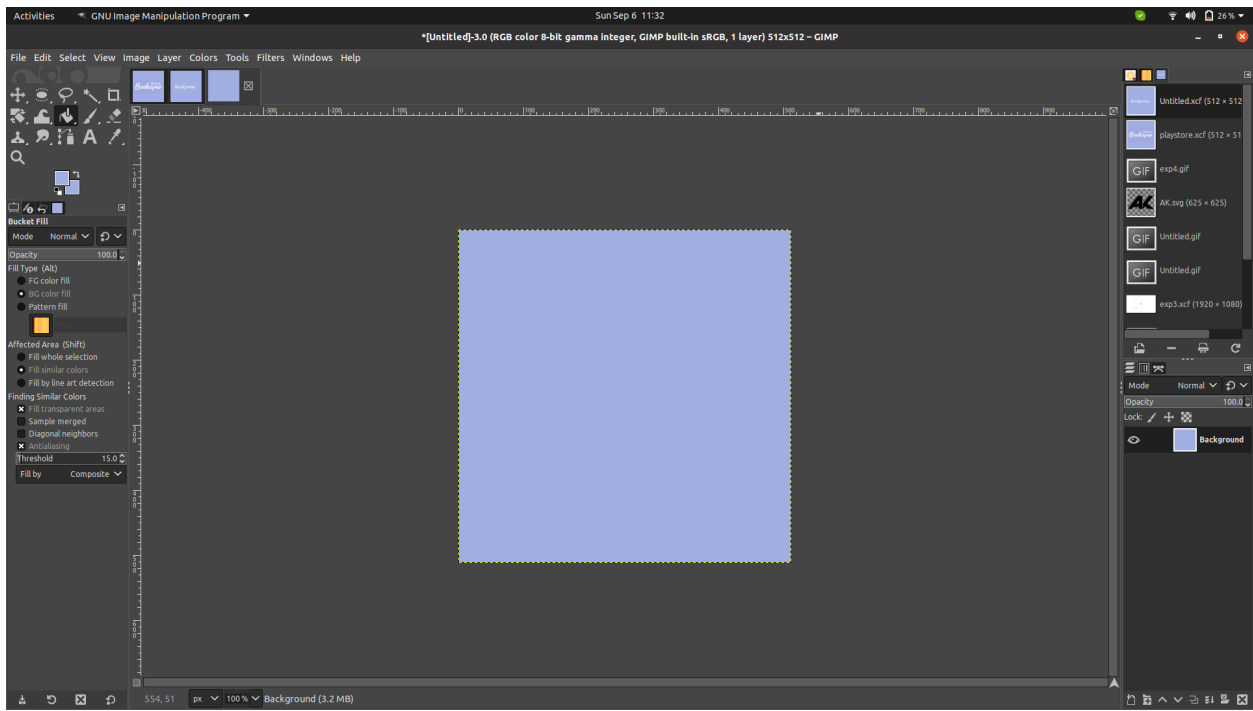

Step 1 : Open GIMP. Go to file->new. From the window that opens up select a template and set the required dimensions.

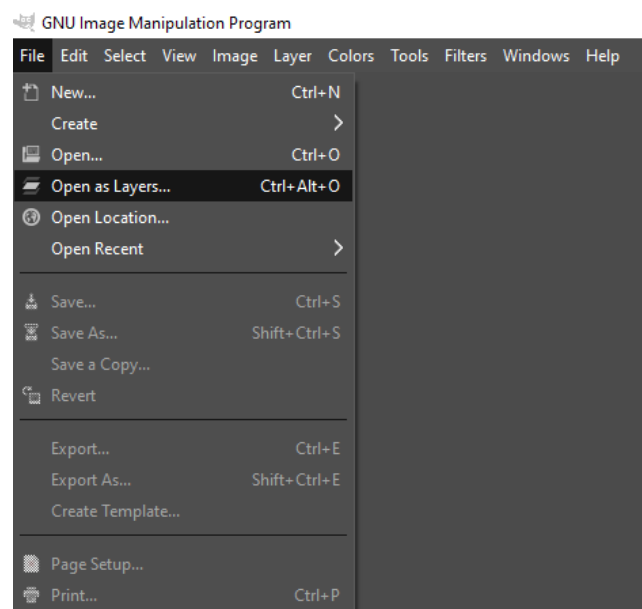

Step 2 : A blank image opens up. Set up the foreground and background color.

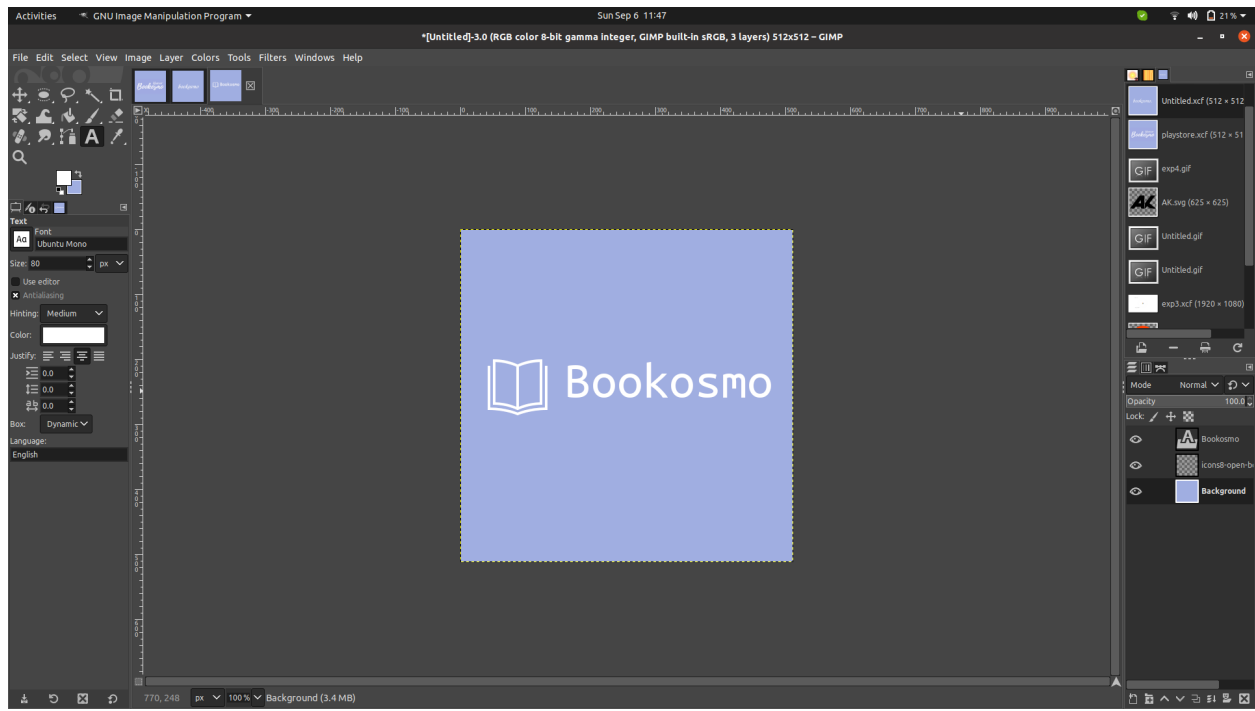

Step 3. Click on the bucket fill icon from the toolbar and fill the color in white image.

Step 4: Go to file->open as layers and select the image you want to insert and adjust the position of the image.

Step 5. Click on the text tool , create the area to write the required text. Choose text color and font style.
